Project Name	Project - A Gesture-based Tool for Sterile Browsing of Radiology Images
Maximum Marks	4 Marks

Brainstorm & idea prioritization

Use this template in your team brainstorming sessions for your team. You will need to have enough space to write down all the ideas that come up. You will also need to have enough space to write down the ideas that you want to prioritize.

1. Brainstorming session
2. Idea prioritization session

Before you collaborate

Before you start brainstorming, make sure you have a clear understanding of the problem you are trying to solve. This will help you to generate ideas that are relevant to the problem.

1. Brainstorming session
2. Idea prioritization session

Problem statement

What problem are you trying to solve? Please state the problem as clearly as possible. This will help you to generate ideas that are relevant to the problem.

1. Brainstorming session
2. Idea prioritization session

Brainstorm

Write down all the ideas that come up. Do not worry about whether the ideas are good or bad. Just write them down. This will help you to generate ideas that are relevant to the problem.

1. Brainstorming session
2. Idea prioritization session

Group ideas

Now you have a list of ideas, it's time to group them. This will help you to identify the most important ideas. You can do this by putting the ideas into groups that are related to each other.
